

Ki Mobility Catalyst 5 Manual Wheelchair

Ki Mobility's flagship product, the Catalyst 5 has since redefined the ultra-lightweight folding market by raising the bar in weight, performance, durability, and functionality. Weighing in at 23 lbs and constructed from ultra-lightweight 7000 series aluminum, the Catalyst 5 is arguably the best choice in high-performance folding wheelchairs. With our largest selection of options to help you customize and configure your chair, the Catalyst 5 makes daily life easier, no matter what the day brings.

Contract approved

- **Innovative Frame Design:** Patented frame concept built from 7000 series aluminum uses intelligent geometry to create a stronger, lighter, better performing chair. The Dual Interlocking Cross Brace rigidizes the frame, so it will remain solid for years to come.
- **Universal Axle Plate:** The Universal Axle Plate does it all. Achieve seat-to-floor heights in 1/2" increments and adjust CG over a 3" range. With a more rigid design than its competitors, Catalyst 5 offers the best performing ride in its class.
- **Swing Away Hangers:** The only swing away footrest hanger with a lifetime warranty! Enjoy the simplicity and strength of Catalyst's premium patented hanger design. Now available with multiple hanger release options so you can easily optimize setup for the client or caregiver.
