

Active Air 8 Alternating Mattress Replacement

The Active Air 8 is a dynamic mattress replacement suitable for users at “High Risk” of Pressure Injury. Featuring AUTODETECT, and AUTOPROTECT, together with CELL-IN-CELL technology, the Active Air 8 provides the highest levels of care into Acute and Long Term care environments. The Active Air 8’s innovative features ensure lowest interface pressures with an easy-to-use digital pump.

- Digital Pump – The Easy-to-read LCD screen provides clear and precise information on cycle time, operating mode and fault codes to assist with troubleshooting
- AutoLock – Control panel automatically locks after 30 seconds, preventing accidental mode changes
- [Watch instructional video to setting up your mattress](#)
- AutoDetect – Based on the user’s weight and size, appropriate pressure output is automatically set, ensuring optimal care and protection
- AutoProtect – When the head of the bed is raised to 45° or more, air pressure automatically increases to prevent bottoming out
- Continuous Low Pressure (CLP) – When activated, this mode increases user immersion and envelopment
- 24hr Transport Mode – In the event of a power failure, this feature provides a security buffer allowing patients to remain on an inflated surface until power is restored
- Sleep Quality - Innovative pump technology reduces noise and vibration, for a quieter sleep environment
- Infection Control - Welded seams and zip protection prevent fluid and bacterial ingress into the system
- Skin Microclimate - The multi-stretch cover reduces shear and offers a high Moisture Vapour transfer rate (MVTR)
- Workplace Health & Safety - The power cord is retained within the overlay
